

U.S. EPA Superfund Program
CERCLIS Comprehensive Data Element Dictionary

Data Elements

System Name: rat_code

Common Name: Action Type Code

Definition: A code identifying a CERCLIS/WasteLAN action. An action is a specific response, non-response (generic), support, enforcement (e.g., response negotiations, settlement actions, litigation), or non-site specific response or support action within the Superfund program. Includes codes for milestones that occur during the period in which an action is performed.

Datatype, Length: VARCHAR2(2)

Relationships: Multiple occurrences of values in rat_code at a site are distinguished by the sequential values stored in act_code_id in the uaction table.

Format:

Ref Table Name: ref_action_type

Valid Values:

RAT_CODE	RAT_NAME
7C	Action Memo
7D	Workplan Memo
7E	PRELIMINARY REVIEW
7F	VISUAL SIGHT INSPECTION
7G	Contractor Review
7H	EPA Review
7I	Review by State PO
7J	Returned to State for Review
7K	Section Chief Review
7L	Review Completed
